**Review report of the independent auditor  
To the shareholders of Arabian Scandinavian Insurance Company (PLC) -  
Takaful - ASCANA Insurance**

**Introduction**

We have reviewed the accompanying condensed interim statement of financial position of Arabian Scandinavian Insurance Company (PLC) - Takaful - ASCANA Insurance (the "Company") as at 30 June 2019, the related condensed interim income statement, condensed interim statement of comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flows for the six months period then ended. Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this condensed interim financial statements based on our review.

**Scope of review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

# Arabian Scandinavian Insurance Company (PLC) - Takaful - ASCANA Insurance Condensed interim financial statements (Unaudited)

## Notes to the condensed interim financial statements For the period ended 30 June 2019

---

### **1 Legal status and activities**

Arabian Scandinavian Insurance Company PLC - Takaful - ASCANA Insurance (the "Company") is a public shareholding company and was registered in 1992 under U.A.E. Federal Law No. (2) of 2015, relating to commercial companies in U.A.E. The Company is subject to the regulation of U.A.E. Federal Law No. 6 of 2007, on Establishment of Insurance Authority and Organization of its Operations and is registered in the Insurance Companies Register of Insurance Authority of U.A.E under registration number 6. The address of the Company's registered office is P.O. Box 1993, Dubai, United Arab Emirates.

The Shareholders Extraordinary General Assembly Meeting held on 19 March 2014 approved conversion of the Company's business from conventional insurance to Takaful insurance. The Board of Directors appointed a Fatwa and Sharia'a Supervisory Board for overseeing the compliance with Sharia'a.

The Company started issuing short term takaful contracts from 1 February 2015 in connection with life and non-life takaful such as motor, marine, fire, engineering, medical and general accident risks (collectively known as general takaful) and the name of the Company was changed to Arabian Scandinavian Insurance Company PLC - Takaful ASCANA Insurance. The Company only operates in U.A.E., through its Dubai and Abu Dhabi offices.

### **2 General information and basis of preparation**

The condensed interim financial statements are for the six months period ended 30 June 2019 and are presented in United Arab Emirate Dirham (AED), which is also the functional currency of the Company. These condensed interim financial statements have been prepared in accordance with IAS 34 'Interim Financial Reporting' and do not include all of the information required in annual financial statements in accordance with IFRS, and should be read in conjunction with the financial statements of the Company for the year ended 31 December 2018. Further, results for interim periods are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2019.

### **3 Significant accounting policies**

These condensed interim financial statements have been prepared in accordance with the accounting policies adopted in the Company's most recent annual financial statements for the year ended 31 December 2018. Certain amendments to accounting standards and annual improvements, as disclosed in the Company's most recent annual financial statements for the year ended 31 December 2018, are applicable on the Company but do not have any material impact on these condensed interim financial statements.

#### **Interim reporting**

The accounting policies used in the preparation of the condensed consolidated interim financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2018 except for the changes in the accounting policies implemented by management from 1 January 2019.

#### **Critical accounting estimates and judgments in applying accounting policies**

The Company makes estimates and assumption that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may substantially be different.

#### *Classification of investments*

Management designates at the time of acquisition of securities whether these should be classified as at FVTOCI or FVTPL. In judging whether investments in securities are as at FVTOCI or FVTPL, Management has considered the detailed criteria for determination of such classification as set out in IFRS 9 - Financial Instruments. Management is satisfied that its investments in securities are appropriately classified.

**Notes to the condensed interim financial statements  
For the period ended 30 June 2019**

---

**3 Significant accounting policies (continued)**

**Critical accounting estimates and judgments in applying accounting policies (continued)**

*Classification of properties*

In the process of classifying properties, management has made various judgments. Judgments are needed to determine whether a property qualifies as an investment property, property and equipment, property under development and/or property held for sale. Management develops criteria so that it can exercise that judgment consistently in accordance with the definitions of investment property. In making its judgment, management has considered the detailed criteria and related guidance set out in IAS 40 - Investment Property, with regards to the intended use of the property.

*Outstanding claims and technical provisions*

The estimation of ultimate liability arising from the claims made under takaful contracts is the Company's most critical accounting estimate. There are sources of uncertainty that need to be considered in the estimate of the liability that the Company will eventually pay for such claims. Estimates have to be made both for the expected ultimate cost of claims reported and for the expected ultimate cost of claims incurred but not reported ("IBNR") at the end of each reporting period. Liabilities for unpaid reported claims are estimated using the input of assessments for individual cases reported to the Company and management estimates based on internal and external actuarial assessment, taking into account the historical data of the claims reported and settlement pattern. Such method takes into account the best estimates of the future contractual cash flows estimated based on the historical data. At the end of each reporting period, prior year claims estimates are reassessed for adequacy and changes are made to the provision.

*Impairment losses on Takaful receivables*

The Company reviews its Takaful receivables on a regular basis to assess whether a provision for impairment should be recorded in the statement of income. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about the probability of default and probable losses in the event of default, the value of the underlying security, and realisation costs.

In addition to specific provisions against individually significant Takaful receivables, the Company also makes a collective impairment provision against Takaful receivables which, although not specifically identified as requiring a specific provision, have a greater risk of default than when originally granted. The amount of the provision is based on the historical loss pattern for Takaful receivables within each grade and is adjusted to reflect current economic changes.

*Liability adequacy test*

At the end of each reporting period, liability adequacy tests are performed to ensure the adequacy of Takaful contract liabilities. The Company makes use of the best estimates of future contractual cash flows and claims handling and administration expenses, as well as investment income from the assets backing such liabilities in evaluating the adequacy of the liability. Any deficiency is immediately charged to the statement of income.

*Valuation of unquoted equity instruments*

Valuation of unquoted equity investments is normally based on recent market transactions on an arm's length basis, fair value of another instrument that is substantially the same, expected cash flows discounted at current rates for similar instruments or other valuation models. In the absence of an active market for these investments or any recent transactions that could provide evidence of the current fair value, management estimates the fair value of these instruments using expected cash flows discounted at current rates for similar instruments or other valuation models.

*Inputs, assumptions and techniques used for expected credit losses ("ECL") calculation – IFRS9 Methodology*

Key concepts in IFRS 9 that have the most significant impact and require a high level of judgment, as considered by the Company while determining the impact assessment, are:

The assessment of a significant increase in credit risk is done on a relative basis. To assess whether the credit risk on a financial asset has increased significantly since origination, the Company compares the risk of default occurring over the expected life of the financial asset at the reporting date to the corresponding risk of default at origination, using key risk indicators that are used in the Company's existing risk management processes.

The measurement of ECL for each stage and the assessment of significant increases in credit risk must consider information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions. The estimation and application of forward-looking information will require significant judgment.

The definition of default used in the measurement of expected credit losses and the assessment to determine movement between stages will be consistent with the definition of default used for internal credit risk management purposes. IFRS 9 does not define default, but contains a rebuttable presumption that default has occurred when an exposure is greater than 90 days past due.

When measuring ECL, the Company must consider the maximum contractual period over which the Company is exposed to credit risk. All contractual terms should be considered when determining the expected life, including prepayment options and extension and rollover options. For certain revolving credit facilities that do not have a fixed maturity, the expected life is estimated based on the period over which the Company is exposed to credit risk and where the credit losses would not be mitigated by management actions.

**15 Voluntary reserve**

The Company had set up the voluntary reserve by transferring 10% of annual profit as per the clause in the earlier Articles of Association which required at least 10% of the Company's annual profit must be transferred to voluntary reserve until it is suspended by an Ordinary General Meeting upon recommendations of the Board of Directors or when the reserve reaches 50% of the paid up capital of Company and this reserve can be utilised for purposes determined by the General meeting up on recommendation of the Board of Directors.

During 2016, the Company had amended its Articles of Association and the clause related to voluntary reserve states that a voluntary purpose reserve can be created upon a recommendation of the Board of Directors and this reserve cannot be utilised for any other purpose unless approved by the General meeting. As per the above amendment, no transfer to voluntary reserve is made for the period ended 30 June 2019 and 31 December 2018.

**22 Segment information**

For management purposes, the Company is organised into two business segments; takaful management and investment. The takaful segment comprises the takaful business undertaken by the Company on behalf of policyholders. Investment comprises investment and cash management for the Company's own account.

Segment performance is evaluated based on profit or loss which in certain respects is measured differently from profit or loss in the condensed financial statements.

Except for Wakala fees, Mudarib fees and Qard Hassan, no other inter-segment transactions occurred during the period. If any other transaction were to occur, transfer prices between operating segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment income, expenses and results will include those transfers between business segments which will then be eliminated on consolidation.

**23 Fair value measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to materially curtail the scale of its operation or to undertake a transaction on adverse terms.

*Fair value of financial instruments carried at amortised cost*

Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the condensed financial statements approximate their fair values.

*Valuation techniques and assumptions applied for the purposes of measuring fair value*

The fair values of financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used in the audited annual financial statements for the year ended 31 December 2018.

*Fair value measurements recognised in the condensed statement of financial position*

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(a) Fair values have been determined by reference to their quoted prices at the reporting date.

(b) The Company holds investments in unquoted securities of three entities as at 30 June 2019 (31 December 2018: three entities). These investments are fair valued based on Net Asset Value Techniques using observable market data. Management believes that there is no significant deterioration in the value of these unquoted investments during the period ended 30 June 2019. All the unquoted securities fall under level 3 of fair value hierarchy therefore use of estimate is significant.

**24 Fatwa and Shari'a Supervisory Board**

The Company's business activities are subject to the supervision of its Fatwa and Sharia'a Supervisory Board consisting of three members appointed by the Shareholders. The Fatwa and Sharia'a Supervisory Board perform a supervisory role in order to determine whether the operations of the Company are conducted in accordance with Sharia'a rules and principles.

According to the Company's Fatwa and Sharia'a Supervisory Board, the Company is required to identify any income deemed to be derived from transactions not acceptable under Islamic Sharia'a principles, as interpreted by Fatwa and Sharia'a Supervisory Board, and to set aside such amount in a separate account for Shareholders who may resolve to pay the same for local charitable causes and activities.

**25 Approval of condensed financial statements**

The condensed financial statements were approved by the Board of Directors and authorised for issue on 7 August 2019.
